

# LincolnCarlton ·ACADEMY·

4<sup>th</sup> January 2018

Dear parents/carers,

I am writing to let you know that a child who attends our school is undergoing medical treatment for cancer. This is not infectious but does put the child at risk of being very poorly if he is exposed to the following infections:

Measles  
Mumps  
Chickenpox  
Shingles  
Sickness and Diarrhoea

Please be assured that your child is not at risk whatsoever from this situation but if you have any concerns please do not hesitate to contact me at school. The health and wellbeing of the child who is at risk will depend on the cooperation of all our parents and I am sure that you will all want to help. Please therefore let me know immediately if you suspect that you or your child may have any of the above infections.

Thank you for your understanding and your co-operation in this.

Yours sincerely,

Mrs Rebecca Malam  
Headteacher
