

Main activity: Go on an Autumn walk. Can you draw/photograph/collect what you see?

English extension: Write a recount of your walk using time conjunctions e.g. first, then, next

Maths extension: Create a tally of the objects you find.

Main activity: Create a weather chart and record the weather over a week.

Extension: Choose one day to report the weather. How will you present this?

**Year 1
Autumn term 1**

'Splendid Skies'

Please choose at least one homework challenge for the term to complete and share in class - you can try them all if you like!

Please bring in your finished homework project by Monday 16th October.

We can't wait to hear about your learning from home.

Main activity: Design and create a kite. What materials will you need? How will you measure the materials? How will you join materials together? Test out your design - what would you do differently next time?

Extension: Write instructions on how to make your kite.

Main Activity: Choose your favourite season and use art to represent it - will you draw, paint or create a collage? Can you create different tints of a colour for leaves/sky or use natural materials for a collage?

Extension: Bring in your art work for the class to guess the season you have chosen.

Main activity: Go on a number hunt - where can you find numbers in your house or out and about? What do we use numbers for e.g. to tell the time on a clock.

Extension: List all the numbers you have found and the places you have found them.

Main activity: What is your favourite weather? Snow in winter to build snowmen, sun in summer to have a water fight, wind in autumn to run through the fallen leaves or showers in spring to jump in puddles? Research some weather poems - listen to the words and how it makes you feel. Choose your favourite and learn it!

Extension: Practise and rehearse your favourite poem ready to recite to the rest of the class.
